Description

2026 Cobalt R4 available to secure now!

The R4 Sterndrive is a family-sized sport runabout incorporating sleek lines, clean handling, excellent performance and a range of luxury appointments. The R4 has the lowest profile of the R Series, not only putting you closer to the water, but also making it easier for trailering and storing. Still, the deep-V hull is long and lean for a commanding presence on the water and standout ride Cobalt is known for.

With a thoughtfully crafted interior environment and painstaking attention to detail, the R4 elevates the experience of day-boating on the water with your family and friends to a new, luxurious level.

Price advertised is for base configuration of the R4 Sterndrive fitted with Volvo Penta V8-300CE-G Engine. Contact our Cobalt Specialist to discuss options and availability.
